Algorithmic trading CONTINUES TO GROW around the world

This represents the trend of this new trading model being widely recognized by the public. Therefore, it is believed that this algorithmic trading model will grow better in the future and **gradually take a bigger market share in the market**. Algorithmic trading supports a wide range of asset classes, including stocks, futures, precious metals, foreign exchange and fixed income. It is believed that in the near future more investment categories will be introduced, **allowing investors to benefit from the advantages of algorithmic trading to gain profit**.

PERFORMANCE BONUS

The performance bonus is **based on the client's account profit as a criterion**, whether it is your direct sponsor or team sponsor, as long as you qualify, you can earn a performance bonus from it.

Performance bonus is an overriding commission, **when your performance bonus basis is higher than your team's basis, you will receive the remaining basis.**

Conversely, when your team's performance bonus basis is higher than or equal to your basis, you will not receive his team's performance bonus.

USING PIB AS AN EXAMPLE:

PIB PERFORMANCE BONUS BASIS = **20%**

(A) When your direct sponsor earns a total of **\$10,000** per month from Opix Algo. You will receive a monthly performance bonus of **\$2,000**.

(B) When clients under your GIB team partner earn a total of **\$100,000** per month. You will receive a performance bonus of **\$5,000** per month.

WEEKLY OUTPUT, WEEKLY WITHDRAWAL

Start earning up to 30% performance bonus for referring any packages

*If the subscription is canceled or ended, the performance bonus will stop being calculated from the clients.

Performance bonus is the **first step to accumulate your capital.**

REBATE BONUS

The rebate bonus is based on the number of lots traded, the more lots your clients trade, **the higher the rebate bonus you receive.**

The rebate bonus is an overriding commission, **when your rebate basis is higher than your team's rebate basis, you will receive the remaining basis.**

Conversely, when your team's rebate basis is higher than or equal to your rebate basis, you will not receive his team's rebate bonus.

USING JIB AS AN EXAMPLE:

JIB REBATE BONUS BASIS = **9USD/1LOT**

Direct Sponsor

Your direct sponsor clients' trading account made **400lots/month**. You will receive a rebate bonus of **\$3,600/month**.

Team Sponsor

Your PIB partner's clients' trading account traded **2000 lots/month** and you will still earn the overriding \$2 commission bonus per lot. You will receive a rebate bonus of **4,000/month**.

WEEKLY OUTPUT, WEEKLY WITHDRAWAL

Earn up to \$13 rebate bonus whenever your client's trading account makes any one lot trade.

The broker **pays rebate bonus to the IB** for the generated trading volume (Lot).

PARALLEL RANKING BONUS

Parallel ranking bonus is reward for IBs at the PIB rank or higher. **When your team has IBs at the same or higher rank than you, you can earn 10% of their total IB earnings.**

The system will calculate your team's IB total IB bonus with your current rank and then multiply it by 10% to determine the Parallel Ranking Bonus.

USING PIB & JIB AS AN EXAMPLE

Your team's JIB earn a total of \$8,000 in IB bonuses per week, and as a PIB, you will earn \$300, while your JIB leader earns \$500.

$\$5,000 \times 10\%$ Parallel Ranking Bonus = \$500

Leader

Example

Minus **PIB** Earnings
 $\$8,000 - \$3,000 = \$5,000$

$\$3,000 \times 10\%$ Parallel Ranking Bonus = \$300
